CANINE VACCINATIONS

Proof of vaccinations for Distemper, Hepatitis, Leptospirosis, Parvovirus, Parainfluenza, Coronavirus, Bordetella (Internasal), and Rabies, will be verified each year. Canines not current on all vaccinations will not be allowed to participate in any Team activities.

These vaccinations are not only to keep the individual handler's dog healthy but to reduce the risk to the other working dogs becoming ill.

Suggested vaccinations also include Lyme Disease and Giardiasis. It is also recommended that canines receive Heartgard monthly.
